E1 Post-Walkthrough Memo - POR

Hi Stacey,

Thank you for taking the time to meet with my partner and I yesterday to walk you through the POR portion of E1. In the interview you specified the following problems...

- Finish implementing the ability to create a purchase order
- Finish implementing the ability to update a purchase order and purchase order item
- Fix removing an item
- The POR subtotal should be calculated
- The POID should be displayed to the user when creating a POR
- The POID and Item ID need to be in a specific format
- POR details should include total and tax
- Display newest POR's first

I will continue working on fixing these problems and will be in touch with you the first of the week to show you the fixes. If we have missed any information, please let us know.

Thank you,
Tyler Hancock
